Public Notices

PALMER CONSERVATION COMMISSION PUBLIC HEARING NOTICE

In accordance with the Wetland Protection Act of the General Laws of the Commonwealth of Massachusetts, Chapter 131, Section 40, and the Town of Palmer Wetlands Ordinance, Chapter 168, the Palmer Conservation Commission will hold a public hearing on **Tuesday, January 23, 2018 at 7:00 PM** at Town Administration Building, Meeting Room #1, 4417 Main Street, Palmer, MA 01069 on the application of Borrego Solar, LLC of 55 Technology Drive, Suite 102, Lowell MA, 01851

The applicant is requesting a Determination of Applicability to see if the work associated with the installation of a 6.4 MW ground mounted solar array is subject to the Wetlands Protection Act and the Town of Palmer Wetlands Ordinance. The Applicant is also requesting confirmation of the precise boundaries of jurisdictional resource areas, which have been delineated at 273 Breckenridge Street.

The location is 273 Breckenridge Street, Palmer, MA 01069, and is also known as: Map 19 Lot 60.

Any interested persons wishing to be heard on the application should appear at the time and place designated. A copy of the application and plan may be inspected at the Palmer Town Hall in the Conservation Commission Office, 4417 Main Street, Palmer, MA 01069 or contact the office at 283-2611.

Donald Blais, Jr
Chair,
Palmer Conservation Commission

PALMER PLANNING BOARD PUBLIC HEARING NOTICE

In accordance with the provisions of Chapter 40A, Section 11, M.G.L. the Palmer Planning Board will hold a public hearing on **Monday, January 22, 2018 at 7:00 PM** in the Town Administration Building, 4417 Main Street, Palmer, MA.

The applicant, Borrego Solar Systems, Inc., is seeking Site Plan Approval as required by section 171.29 and 171.126 to install a 6.4 MW ground-mounted photovoltaic system at the property located at 271 Breckenridge Street, Palmer MA. The subject area is comprised of four parcels also known

as Assessors Map 19, Lots 60-63.

A copy of the application may be inspected at the Planning Department office in the Town Administration Building from 8:30 AM to 4:30 PM, Monday through Thursday.

Anyone interested in more information or wishing to be heard on the application can contact the Planning Department at 283-2605 or appear at the time and place designated above.

This notice shall also be posted on the Massachusetts Newspaper Publishers Association's (MNPA) website (<http://masspublicnotices.org>).

Michael Marciniak,
Chairman
1/04, 1/11/18

PALMER CONSERVATION COMMISSION PUBLIC HEARING NOTICE

In accordance with the Wetland Protection Act of the General Laws of the Commonwealth of Massachusetts, Chapter 131, Section 40, and the Town of Palmer Wetlands Ordinance, Chapter 168, the Palmer Conservation Commission will hold a public hearing on **Tuesday, January 23,**

2018 at 7:00 PM at Town Administration Building, Meeting Room #1, 4417 Main Street, Palmer, MA 01069 on the application of Joseph Maiolo of 144 Oakridge Street, Chicopee MA 01020-2154

The applicant is requesting a Notice of Intent for the replacement of a failed septic system. The proposed project is entirely within the 100-foot buffer zone to a BVW and will require 525 SF of disturbance within the 100-foot buffer zone.

The location is 115 Laurel Street, Palmer, MA 01069, and is also known as: Map 10 Lot 23.

Any interested persons wishing to be heard on the application should appear at the time and place designated. A copy of the application and plan may be inspected at the Palmer Town Hall in the Conservation Commission Office, 4417 Main Street, Palmer, MA 01069 or contact the office at 283-2611.

Commonwealth of Massachusetts The Trial Court Probate and Family Court

Hampden Division 50 State Street Springfield, MA 01103 (413)748-8600

Docket No. HD17P2449EA

Estate of: **BEATRICE M MULLEN**

Also Known As: **BEATRICE MULLEN**

Date of Death: **December 10, 2017**

INFORMAL PROBATE PUBLICATION NOTICE

To all persons interested in the above captioned estate, by Petition of Petitioner **RICHARD M GABERMAN** of Longmeadow MA a Will has been admitted to informal probate.

RICHARD M GABERMAN of Longmeadow MA has been informally appointed as the Personal Representative of the estate to serve **without surety** on the bond.

The estate is being administered under informal procedure by the Personal Representative under the Massachusetts Uniform Probate Code without supervision by the Court. Inventory and accounts are not required to be filed with the Court, but interested parties are entitled to notice regarding the administration from the Personal Representative and can petition the Court in any matter relating to the

estate, including distribution of assets and expenses of administration. Interested parties are entitled to petition the Court to institute formal proceedings and to obtain orders terminating or restricting the powers of Personal Representatives appointed under informal procedure. A copy of the Petition and Will, if any, can be obtained from the Petitioner.
1/11/17

Commonwealth of Massachusetts The Trial Court Hampden Probate and Family Court

50 State Street Springfield, MA 01103 (413)748-7758

Docket No. HD17P2434EA

Estate of: **Irene May Tassinari**

Date of Death: **11/02/1984**

CITATION ON PETITION FOR FORMAL ADJUDICATION

To all interested persons: A Petition for **Formal Appointment of Personal Representative** has been filed by: **Carl R Tassinari** of Monson, MA requesting that the Court enter a formal Decree and Order and for such other relief as requested in the Petition.
The Petitioner requests

that: **Carl R Tassinari** of Monson, MA be appointed as Personal Representative(s) of said estate to serve on the bond in an **unsupervised** administration.

IMPORTANT NOTICE

You have the right to obtain a copy of the Petition from the Petitioner or at the Court. You have a right to object to this proceeding. To do so, you or your attorney must file a written appearance and objection at this Court before: **10:00 a.m. on the return day of 01/25/2018.**

This is NOT a hearing date, but a deadline by which you must file a written appearance and objection if you object to this proceeding. If you fail to file a timely written appearance and objection followed by an Affidavit of Objections within thirty (30) days of the return date, action may be taken without further notice to you.

UNSUPERVISED ADMINISTRATION UNDER THE MASSACHUSETTS UNIFORM PROBATE CODE (MUPC)

A Personal Representative appointed under the MUPC in an unsupervised administration is not required to file an inventory or annual accounts with the Court.

Please check the accuracy of your legal notice prior to submission (i.e., date, time, spelling). Also, be sure the requested publication date coincides with the purpose of the notice, or as the law demands. Thank you.

Persons interested in the estate are entitled to notice regarding the administration directly from the Personal Representative and may petition the Court in any matter relating to the estate, including the distribution of assets and expenses of administration.

WITNESS, Hon. **Barbara M Hyland**, First Justice of this Court.
Date: December 28, 2017
Suzanne T. Seguin
Register of Probate

SPACE | from page 1

in the Amateur Radio on the International Space Station program, an initiative that encourages student interest in space, science, engineering and other technology careers through radio building and operating.

"It's a really just amazing thing for young students to have the opportunity to learn," said Zielinski.

Also present were Warren, Pathfinder sophomore and Belchertown resident Nathan Kendall and representatives from the Mount Tom Amateur Repeater Association, including Board of Directors member Al Grimaldi, President Sue Grimaldi, and secretary Harold Woering.

At the center of the room they were standing in recently was a radio array constructed by several staff and students using a commercial antenna, a re-purposed and modified speaker tri-pod, and a milled base allowing the antenna to move and swivel.

Just two weeks before, Zielinski and the rest of the Pathfinder faculty received notice from ARISS that the school had been selected as one of 13 finalists from across the country, from 25 original applying schools and groups, who would be allowed to participate in phase two of this year's program. They will have the chance to move one step closer to speaking with astronauts aboard the ISS.

Should they make it to the final stage of the deliberation process, the school will be granted a brief window of time on a select date where they will be allowed to transmit and connect their radio on the ground with the radio located aboard the space station and ask astronauts sev-

eral questions of their choosing live.

But connecting a radio array on the ground to an object moving through space at 18,000 miles per hour is no easy feat, which is why Zielinski said the school will be required to submit a comprehensive equipment and technology plan detailing just what kind of capabilities their array will have and if it can make the cut.

"We're hoping to get the other departments, electronics, machine, other shops not just our own involved and really make it something for the whole school to be a part of and not just one shop and a few students," said Zielinski.

The final array will according to Zielinski likely be over 12 to 14 feet in length and controlled through the use of a computer program that will help to adjust factors including the array's elevation and movement.

The new set-up will likely be positioned on the roof of the school, a much different set up than the current array which can be used to transmit radio signals off of orbiting satellites and to speak with individuals located from as far away as Florida.

Should they be selected to move forward in the competition the school will likely be slated to contact the space station in the later half of 2018.

"I think that what is most appealing about amateur radio is that it is such a broad field that has so many different possibilities that come with it," said Zielinski.

Marius Zielinski and student Nathan Kendall demonstrate the technological capabilities of radios using only electronic waves emitted from the radio to cause a nearby bulb to light up.

er Amateur Radio.

Through his own interactions in working in amateur radio broadcasting and in meeting with another MTARA member Gary Thomas, Zielinski said that he became aware of the ARISS program and set up the school to take part.

"It seemed like a really great opportunity to give kids a chance to learn and experience more about HAM radio," said Zielinski.

Although they were denied for last year's application Warren said that getting turned down served as a good learning experience for what needed to be done differently. He said both he and Zielinski have learned more about the field including taking part in workshops and training hosted through the National Association

for Amateur Radio. Students from various programs throughout the school also began contributing in various ways to help and learn more about the project.

Kendall was among those students who took part and said that since beginning the project he has become enamored by HAM radios and hopes to seek out a federal Amateur Radio Technical Certification to begin constructing and array of his own and broadcasting.

"I started just looking at the equipment one day and got interested in it," said Kendall who said Zielinski began to walk him through the many capabilities of HAM radios.

"It's interesting to me to see how you can communicate with people who are so far away all while using

so little energy," said Kendall.

"A lot of people have been very supportive of the project overall," said Warren. "It takes a whole team of people to make something like this happen."

Warren and Zielinski said they hope that the project will foster a growing interest at the school. Warren remarked that with the recent efforts to return to space in the national spotlight, he hopes it will ultimately encourage students to consider entering into space related fields following their graduation.

Thomas and his fellow members of the MTARA also helped in numerous ways such as donating needed equipments and helping guide Zielinski and Warren with setting up and broadcasting properly.

"We knew right away after Marius approached us about it that it was definitely something that we wanted to be a part of," said Sue Grimaldi.

Al Grimaldi said that one of the most attractive aspects of involving students in HAM radio operations is not only the exposure of teaching them communications technology that can lend itself in emergencies but also the volunteer aspect since all ama-

teur radio operations are considered to be non-profit.

Al noted how during the June 1, 2011 the club's efforts helped in communicating with emergency services and tracking the path of the tornado's damage. They were also able to provide coverage for events including local parades and other community gatherings.

Woering, who has had the opportunity to speak with astronauts aboard the station in the past, said he is excited to see the renewed interest in space that comes with the project.

"I'm here to give 100 percent of my efforts where they are needed," said Woering.

"The really exciting part is seeing people get involved that normally wouldn't," said Sue. "It's certainly not something that will stay just in the school. It will definitely grow to the rest of the community as well!"
