Clark holds lecture on French artists

WILLIAMSTOWN – On Saturday, Jan. 10 at 11 am, the Clark Art Institute, 225 South St., celebrates the opening of its newest exhibition Shadow Visionaries: French Artists Against the Current, 1840-70 with a free lecture.
Offering a new take on mid-nineteenth-century French art, exhibition curator Anne Leonard, Manton Curator of Prints, Drawings, and Photographs, introduces the exhibition. The lecture takes place in the Manton Research Center auditorium. Although Realism is often seen as the dominant aesthetic of mid-nineteenth-century France, certain printmakers and photographers, called “shadow visionaries” for this project, embraced imagination, dreams, and allegory instead. Working against the grain, figures such as Victor Hugo, Charles Meryon, Rodolphe Bresdin and a roster of early French photographers-offered an alternate vision anchored in memory, fantasy, and longing. These artists recognized the potential of prints and photographs to construct a spiritual consciousness in the art of mid-1800s France.
Accessible seats are available; for information, people may call 413-458-0524. For more details, people may visit events.clarkart.edu.

SUDOKU

Here's How It Works:
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Fun By The Numbers
Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!
